WASHINGTON : 1956

## REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1957, any article of the following named classes of published works deposited for copyright between January 1, 1953, and January 1, 1954, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347
---------------------

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part:  
\$1.50 per issue, \$3.00 per year.

## Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entires and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided to represent the classes of material listed in section 5 of said Title 17. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for \$20 a year.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, as given in the application for registration, the copyright date, the copyright registration number, etc.) Available information in the records of the Copyright Office, including information relating to subsequent changes of ownership, can be obtained upon request and upon payment to the Register of Copyrights of the fee specified in section 215 of said Title 17 (\$3 for each hour of time consumed) for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of said Title 17, or, in the case of published three-dimensional works of art, there has been compliance with section 202.8 (b) (3) of the regulations of the Copyright Office published in the *Code of Federal Regulations*, 1949 edition, which provides for the deposit of identifying reproductions in lieu of the

work itself. Foreign works, two copies of which were deposited with a catalog card and application for registration under the waiver-of-fee provision in section 215 of Title 17 of the *United States Code*, are indicated by a zero immediately following the alphabetical symbol in the registration number.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Register of Copyrights.

The Copyright Office welcomes inquiries, suggestions and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

### Table of Organization

Each part listed in the table records all current registrations in the class or classes indicated by the alphabetical symbols given. In each case the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis. A zero immediately following the symbol (e. g., AF0, EF0) distinguishes a foreign work deposited under the waiver-of-fee provision. The symbol R does not represent a class designated by the copyright law, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. These are recorded in a separate section of those parts of the *Catalog* which cover the classes in which the works were originally

registered with the exception of music. Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

Name List . . . . .	1
Title Index . . . . .	303
Classified Index . . . . .	373
Claimant Index . . . . .	439

## INTRODUCTION

PART 5A lists domestic and foreign published music and selected unpublished music currently registered in Class E. It includes also music materials in the form of books, pamphlets, and dramas registered in other classes.

The Name list is arranged under the name of the person responsible for the music (generally the composer). Each work registered is described in a main entry which includes information pertinent to the copyright claim. References are made from the names of other persons contributing to the works, such as joint composers, authors of words, arrangers, and editors, together with cross-references from variant forms of names. The Title Index is an index to the titles given in the main entries. In the Classified Index, each work is listed under the medium of performance of the work, or, when the music is of a special type, under an appropriate subject heading. The Claimant Index lists each registration under the name of the copyright claimant and gives the latest known address for each claimant other than an individual.

Each main entry includes, in addition to the name or title under which it is filed, the following items of information if available and applicable:

- 1) Title and any descriptive data given in the publication.
- 2) Names of the authors of words, joint composers, editors, etc.
- 3) Place of publication and name of publisher when the publisher is not also the claimant (when the publisher and claimant are the same, name and place of publication appear only with the data relating to the claim of copyright).

- 4) Indication as to whether the work is published in score and/or parts, and paging.
- 5) Series title, when useful as an aid in locating the work.
- 6) Note giving the medium of performance of the work when necessary.
- 7) Price, given exactly as it is printed on the copy.
- 8) Names of authors given in the application which do not appear elsewhere in the entry.
- 9) Name of the employer in the case of a work made for hire, if so named in the application, together with the names of the employees when given.
- 10) Information contained in the application which relates to the registration of an earlier version of the work.
- 11) Brief statement of the new matter on which copyright is claimed when this information is given in the application, if not already indicated in the entry, preceded by the abbreviation "NM."
- 12) Copyright symbol ©.
- 13) Name of the copyright claimant, followed by the place of publication for claimants other than individuals, unless a place of publication has been given in the imprint above.
- 14) For published works, date of publication as given in the application; for unpublished works, the date on which the last of all the items required to complete registration (i. e., copy, application, and fee) was received in the Copyright Office.
- 15) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and the copy of the work with respect to the claimant's name or the date of publication, the data from the application are given first, followed by the phrase "in notice" and the data given in the work; e. g., © Republic Music Corp., New York; 24Jan55 (in notice: 1954); EP86572.

Conventional titles are supplied in brackets above the title taken from the work, in order to bring together all editions of—or excerpts from—one work, or to file nondistinctive titles under the name of the musical form; for example:

HAGUE, ALBERT MARTIN.

[[Plain and fancy. Follow your heart]]

Follow your heart; [[from]] the musical comedy, Plain and fancy. Lyrics by Arnold Horwitt. 5 p. 50¢ © Chappell & Co., Inc., New York; 7Dec54; EP86005.

Occasionally, the name of one or more of the authors or the conventional title does not appear in the work; in such cases they have been supplied from the records of the Copyright Office or from bibliographic sources.

#### ABBREVIATIONS AND SYMBOLS

The following list includes abbreviations and symbols used in this catalog with specific copy-

right or bibliographic meanings. Definitions are not given for abbreviations in common use.

*	—asterisk indicates that Library of Congress printed cards are available and may be ordered from the Card Division

### COPYRIGHT REGISTRATIONS OF PUBLISHED MUSIC

January–June 1955

Musical compositions published in the United States.....	4, 773
Musical compositions published abroad...	5, 464
<hr/>	
Total.....	10, 237

The above figures represent the number of registrations for published music for January–June 1955, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

## NAME LIST

An alphabetical list, under composers, authors of words, editors, compilers, arrangers, etc., of domestic and foreign musical materials registered during the period covered by this issue. The full description of each work is contained in the main entry, which appears under the name of the person principally responsible for the work, usually the composer.
